

**PROPX's** patented PropBeast® containerized dry sand system efficiently transports proppant from the box to the blender through a gravity-driven, fully enclosed conveyor, ensuring seamless and reliable operation.

## BENEFITS

Eliminates need for pneumatic blowers

Virtually noise-free and dust-free

Efficient, cost-effective delivery solution

# CONTAINERIZED DRY SAND

## Gravity-driven Delivery System

**PROPX's** patented, optimized container design maximizes proppant capacity, while the PropBeast® conveyor system automates delivery, significantly reducing silica dust and noise.

Haul more sand at  
a reduced cost

Proprietary  
PropConnect  
tracking software

Automated,  
gravity-driven  
delivery system

Reduced  
noise

Pump more proppant  
per day than  
conventional methods

Virtually  
dustless delivery  
to the blender
